You're Invited to an Urgent Meeting to Stop the FDA!

It's an emergency and you must react NOW! Recently, President Clinton directed the FDA to prepare a proposed rule that would grant the FDA power to regulate cigarettes and other tobacco products. He wants to give regulatory control of tobacco to the FDA — the most power-hungry agency in Washington. This is so severe, it could change the way tobacco products are sold and marketed.

This is the biggest outrage ever to threaten your rights as a business owner. Now, more than ever, your business is at stake. That's why we are holding a meeting for concerned business people like you. At this meeting, you will learn steps you can take to help stop this interference in your business. Come join us:

Date: Wednesday, September 13

Place: Marriott Windwatch
1717 Vanderbilt Motor Parkway
